SUMMARY

Respectful self-motivator gifted at finding reliable solutions for software issues. Experienced in leading a team and dedicated to achieving demanding objectives according to tight schedules and offering skills in Autosys, Perl and SQL. Fluent in English and accustomed to working with cross-cultural, global teams.

PROFESSIONAL EXPERIENCE

Cognizant Technology Solutions

Tech Lead / Program Analyst (BGIM, MUFG)

Aug 2017 – Aug 2022

Hyderabad, India

BGIM / Tech Lead

2021 – 2022

- Coordinated deployments of new jobs, enhancements and fixes.
- Estimated work hours and tracked progress using Scrum methodology.
- Supervised work of analysts, assigned tasks and monitored performance against targets.
- Contributed ideas and suggestions in team meetings and delivered updates on deadlines, designs and enhancements.
- Assisted senior developers in integrating complex features for improved performance and maintainability in .NET projects.

MUFG / Associate

2020 – 2021

- Completed change management assessments for production changes.
- Identified, analyzed and prepared risk mitigation tactics.
- Evaluated and ensured user readiness for changes and releases.

BGIM / Program Analyst

2017 – 2020

- Developed batch jobs, Perl and SQL scripts for business processes.
- Provided 24x7 support for automation incident resolution and change management.
- Tested troubleshooting methods and documented resolutions for inclusion in the support knowledge base.

KEY ACHIEVEMENTS

2017–2018: Replaced an SME seamlessly as a fresher, helping the team meet delivery targets during a resource crunch.

2019–2020: Helped achieve 250% of the target soft-dollar savings by automating a BD process.
